Consent to Assessment and Treatment of Sensitive Areas

The College of Massage Therapists of Ontario (CMTO) has enacted a policy requiring both new and returning clients to give special consent for "sensitive areas" (defined by the CMTO as the buttocks, chest wall muscles, upper inner thighs and breasts) before every massage treatment. This is in addition to the consent already required by the RMT at the start of every treatment. ***You are not required to give consent for areas you are not comfortable having treated****. This form is to protect both the client and the RMT.*

I, _____, consent to the assessment and/or treatment of the following areas if pertinent to the massage treatment (please **initial** those that apply):

___ Buttocks (gluteal muscles)
___ Chest wall muscles (below collarbone, above breast tissue)
___ Upper inner thighs
___ Breasts (excluding nipples/areolae)

If the RMT needs to modify the treatment during the massage, they will inform me of their request and gain verbal consent before proceeding. **I understand I may modify or stop the treatment at any time**. I understand I may grant or retract my consent for massage of the sensitive areas at any time and that I must inform my RMT of this decision.

Signature: _____ Date: _____

Ongoing Treatment Consent (please initial and indicate if consent has changed)
